

## HOLD THE DATE NOVEMBER 24TH FOR YOUR PROFESSIONAL COURSE ON: RISK BASED DECISION MAKING

*Manufacturing medicines is easy until things go wrong. Making the right decision is always difficult ...particularly when information is sparse and the stakes are high. After all, the consequence of making the wrong decision can be catastrophic.*

Dear members,

VAPI-UPIP is proud to announce a follow-up on the workshop 'Interactive Round Table Quality Risk Management' of November last year.

We will collaborate with **David Begg Associates**, one of the most respected and outstanding training organizations in the European arena.

**Tuesday 24 November**, a 1 day course will be organized on 'Risk-Based decision Making'. See attachment for more details on the content.

### What are the advantages for you?

- Senior tutor with extensive experience in industry and linked to the academic world. Martin Lush will lecture our course.
- Trained tutors in getting the content of the course effectively across.
- Focus on real on the field situations of the pharmaceutical industry without being too academic.
- Tailor made case studies. Your input is needed!
- Find out more about DBA through <http://www.dba-global.com/>

### What additional benefits can you expect from VAPI-UPIP?

- A professional course organized in Belgium, close to you.
- VAPI-UPIP is a non-profit professional association.
  - Reduced price. VAPI-UPIP offers this 1 day course for 600€ for its members and 800€ for non-members.
  - VAPI-UPIP will invite related organizations and their members to participate.
- EIPG, Pharma.be, BRAS, BAPU, BeAPP, NIA,....
- This generates a unique chance to build your network beyond the boundaries of your own company.

**In order to best meet your needs, we need your input on advance. Let us know what case study you prefer to work on. Tailor made case studies will be developed!**
